Cloudflare
Prerequisites
JavaScript Fundamentals
Basic Command-line Knowledge
HTTP and Web Protocols
Git Basics
Core Development Skills
Node.js and NPM
TypeScript Fundamentals
Understand Serverless Architecture
Workers Runtime Environment
Edge Computing Fundamentals
Request/Response Handling
Fetch API and Runtime APIs
Workers Lifecycle
Service Bindings
Caching Strategies
Middleware Patterns
Bindings
Logging and Monitoring
Workers Core Concepts
Frameworks and Tools
API Routers
Hono
Itty Router
Frontend Frameworks
Any Frontend Framework
Building / Deploying
Wrangler
Miniflare
DevTools Integration
CI/CD Pipelines
Workers KV
Storage Solutions
Key-value Operations
Metadata Handling
Bulk Operations
Caching Patterns
Object Storage
Large File Handling
R2 Storage
Asset Management
Bucket Operations
Bucket Lifecycle
Schema Management
Migrations
Query Optimization
D1
Durable Execution
Drizzle
Prisma
Frameworks
Durable Objects
Queues
Workflows
State Management
Coordination
Persistence
Transactional Operations
Message Processing
Background Jobs
Rate Limiting
Dead Letter Queues
Advanced Features
Workers AI
Vectorize
Stream
Images
Text Generation
Image Processing
Speech Rcognition
AI Model Integration
Vector Embeddings
Similarity Search
AI-powered Search
Video Delivery
Live streaming
Video Processing
Calls
Tunnels
Browser Rendering
AI Gateway
Email Workers
Workers Security Model
Isolates Architecture
Web Security Headers
Rate Limiting
Cache API
HTML Rewriting
Edge SSL/TLS
Bot Management
Security & Performance
Routing
Processing
Filtering
Integration & Workflows
Development Tools
Pages Functions
Service Bindings
Inter Worker Communication
External API Integration
Webhook Handling
Event-driven Architectures
